# KSEA Distinguished Guest Series

## Science & Technology Diplomacy

Wednesday, May 3<sup>rd</sup>, 2023 (virtual)

5:30-6:30 PM (PT), 8:30-9:30 PM (ET)

[Zoom Link](#)

Emerging sciences and technologies are being developed at an incredible speed, and have the potential to solve national and global problems. They are now not only an increasing subject of scientific and technical research and development, but also a focus of national governments and international institutions. In this Distinguished Guest Series, we host a dialogue with Sung-Chul Shin, South Korea's Ambassador for Science and Technology, whose role is to promote global collaboration in science and technology, to support the science and technology diplomacy activities and to propose strategies in diplomacy issues that require convergence and complex responses.

Speaker

**Sung-Chul Shin**

*Ambassador for Science and Technology,*

*Republic of Korea (2022 - Current)*

*16<sup>th</sup> President of KAIST, Republic of Korea
